

his possessory rights, if all requirements of the general mining laws are met. However, the validity of any unpatented mining claim may be contested by the United States, the grantee of the United States or its successor in interest, or by any person who may initiate a private contest. Contest proceedings and appeals therefrom shall be to the Interior Board of Land Appeals.

(b) *Patent requirements met.* An acceptable mineral patent application must be filed with the appropriate Bureau of Land Management office not later than December 18, 1976, on lands conveyed to village or regional corporations.

(1) Upon a showing that a mineral survey cannot be completed by December 18, 1976, the filing of an application for a mineral survey, which states on its face that it was filed for the purpose of proceeding to patent, will constitute an acceptable mineral patent application, provided all applicable requirements under the general mining laws have been met.

(2) The failure of an applicant to prosecute diligently his application for mineral patent to completion will result in the loss of benefits afforded by section 22(c) of the Act.

(3) The appropriate office of the Bureau of Land Management shall give notice of the filing of an application under this section to the village or regional corporation which has selection rights in the land covered by the application.

(c) *Patent requirements not met.* Any mineral patent application filed after December 18, 1976, on land conveyed to any village or regional corporation pursuant to this Act, will be rejected for lack of departmental jurisdiction. After that date, patent applications may continue to be filed on land not conveyed to village or regional corporations until such land is conveyed.

(43 U.S.C. 1601-1624)

[38 FR 14218, May 30, 1973, as amended at 40 FR 33174, Aug. 6, 1975]

§ 2650.4 Conveyance reservations.

§ 2650.4-1 Existing rights and contracts.

Any conveyance issued for surface and subsurface rights under this act will be subject to any lease, contract, permit, right-of-way, or easement and the rights of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted him.

§ 2650.4-2 Succession of interest.

Upon issuance of any conveyance under this authority, the grantee thereunder shall succeed and become entitled to any and all interests of the State of Alaska or of the United States as lessor, contractor, permitter, or grantor, in any such lease, contract, permit, right-of-way, or easement covering the estate conveyed, subject to the provisions of section 14(g) of the Act.

§ 2650.4-3 Administration.

Leases, contracts, permits, rights-of-way, or easements granted prior to the issuance of any conveyance under this authority shall continue to be administered by the State of Alaska or by the United States after the conveyance has been issued, unless the responsible agency waives administration. Where the responsible agency is an agency of the Department of the Interior, administration shall be waived when the conveyance covers all the land embraced within a lease, contract, permit, right-of-way, or easement, unless there is a finding by the Secretary that the interest of the United States requires continuation of the administration by the United States. In the latter event, the Secretary shall not renegotiate or modify any lease, contract, right-of-way or easement, or waive any right or benefit belonging to the grantee until he has notified the grantee and allowed him an opportunity to present his views.

§ 2650.4-4

43 CFR Ch. II (10-1-99 Edition)

§ 2650.4-4 Revenues. [Reserved]

§ 2650.4-7 Public easements.

§ 2650.4-5 National forest lands.

Every conveyance which includes lands within the boundaries of a national forest shall, as to such lands, contain reservations that:

(a) Until December 18, 1976, the sale of any timber from the land is subject to the same restrictions relating to the export of timber from the United States as are applicable to national forest lands in Alaska under rules and regulations of the Secretary of Agriculture; and,

(b) Until December 18, 1983, the land shall be managed under the principles of sustained yield and under management practices for protection and enhancement of environmental quality no less stringent than such management practices on adjacent national forest lands.

§ 2650.4-6 National wildlife refuge system lands.

(a) Every conveyance which includes lands within the national wildlife refuge system shall, as to such lands, provide that the United States has the right of first refusal so long as such lands remain within the system. The right of first refusal shall be for a period of 120 days from the date of notice to the United States that the owner of the land has received a bona fide offer of purchase. The United States shall exercise such right of first refusal by written notice to the village corporation within such 120-day period. The United States shall not be deemed to have exercised its right of first refusal if the village corporation does not consummate the sale in accordance with the notice to the United States.

(b) Every conveyance which covers lands lying within the boundaries of a national wildlife refuge in existence on December 18, 1971, shall provide that the lands shall remain subject to the laws and regulations governing use and development of such refuge so long as such lands remain in the refuge. Regulations governing use and development of refuge lands conveyed pursuant to section 14 shall permit such uses that will not materially impair the values for which the refuge was established.

(a) *General requirements.* (1) Only public easements which are reasonably necessary to guarantee access to publicly owned lands or major waterways and the other public uses which are contained in these regulations, or to guarantee international treaty obligations shall be reserved.

(2) In identifying appropriate public easements assessment shall be made in writing of the use and purpose to be accommodated.

(3) The primary standard for determining which public easements are reasonably necessary for access shall be present existing use. However, a public easement may be reserved absent a demonstration of present existing use only if it is necessary to guarantee international treaty obligations, if there is no reasonable alternative route or site available, or if the public easement is for access to an isolated tract or area of publicly owned land. When adverse impacts on Native culture, lifestyle, and subsistence needs are likely to occur because of the reservation of a public easement, alternative routes shall be assessed and reserved where reasonably available. The natural environment and other relevant factors shall also be considered.

(4) All public easements which are reserved shall be specific as to use, location, and size. Standard sizes and uses which are delineated in this subsection may be varied only when justified by special circumstances.

(5) Transportation, communication, and utility easements shall be combined where the combination of such easements is reasonable considering the primary purposes for which easement is to be reserved.

(6) Public easements may be reserved to provide access to present existing Federal, State, or municipal corporation sites; these sites themselves shall not be reserved as public easements. Unless otherwise justified, access to these sites shall be limited to government use.

(7) Scenic easements or easements for recreation on lands conveyed pursuant to the Act shall not be reserved. Nor shall public easements be reserved to hunt or fish from or on lands conveyed pursuant to the Act.
